SEE—KAY—YOU—TEE

Talk about bad timing.

When we got the okay from the Department of Communications to flip the switch to the new station, we hoped the billboard was a little rough, but with time, the ride should be smooth... with some help from WFL.

In an effort to aid the local community, CRUT's promotional SEE-KAY-YOU-TEE, thank you very much! It has been involved in promoting local music, so presenting the Rock-Test, the Voodoo (B&O), Sunday night at the American Rock Club, various other shows including a lot of work (and some to come) with Les Professeurs Stoughtons. The reason for all this involvement is, yes, it gets our name around, but more importantly, we hope that the audience we're reaching will get a little more cultured and go out and support local shows and events. Too many times you see the same faces at all the shows, which is great, but we hope to encourage more individuals to do the same. After all, in a city which released over twenty-three pieces of indie vinyl in one year, an impressive amount. In itself, they should be plenty of variety to satisfy everyone's taste. In the future, we hope to get involved in arts and poetry festivals such as Stoughton, just to name a few, and a whole lot more.

If you have an CRUT association you, and you'd like to get involved somehow, you'll remain their welcome anytime. It's all our volunteer base, and there are always plenty of avenues to look into, so think about it and give us a call.

And Now For Something Completely Different

It has come to my attention (quite a few times) that Kirk and I are being the radio station itself are being attacked (allegedly) by CRUT's radio program guide, now our independently published New-Cards. In the past, I would purchase my slip and look the other way, including coordination with another publication in the city which would

likes and dislikes, either through a letter or a phone call. The feedback would be most appreciated. Presence of ERAC (I know it's not) but with time, the ride should be smooth... with some help from WFL.

What I actually spent on, and drove me to sit down and write this, was a letter which appeared in the Dec. 87 issue entitled, "Someone Likes Us". This letter described CRUT as looking like a cheerleader and reading like this: It's hard to just look the other way from something like this, so I got a reply to them.

This letter ran through various points, describing what was at issue with the issue (CRUT's), though the individual called a couple of articles were good. One article entitled "Local Campus Plans" was called an advertisement of the published show "Music Underground Canada" which was our own CDG. These local cassette plans, as described in the article, was a decision made at the NCCRA's (now former National Campus Community Radio Association) by all the participating members. It was thought we'd just pass the word around here, that all we wanted was to include "Music Underground Canada" in any shape or form. The CDG will be "Music From All Across the Country." The idea for this cassette was just for Montreal.

The letter also claimed that some of the recent reviews were a little out of hand. I appreciate the feedback, but I had to ask what was the issue with the review, because I was "too" old, so I included that of some background.

I have no quarrel against Kirk, I believe that all the recent reviews are, but the local ones are the most important to us, so I'd like to suggest that we make it July or Jerry's or July's record came out in June or July and some reviews in February.

What we wanted about Personal sides of this record and not hitting the market at the right time? That in two months, a local record would show and nobody will cancel Radio! The most important thing is to let people know about their records, and to see. To further the point, the July Jerry review in the issue ended up being read on the McGill Music show, City Line, so who knows, maybe from that, some people think the industry were not as tough as others after seeing it on television. If I had decided to pull the review, because I was "too" old, so I included that of some background.
